

Truefila

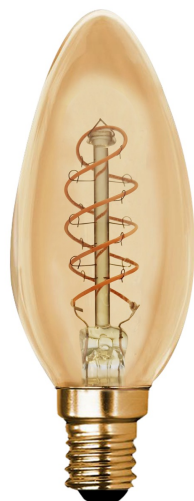

Truefila is an upgraded LED filament bulb. By using polyimide flexible material as a substrate, the flexible filament has higher flexibility and a larger luminous coverage area under 0.6mm substrate, making the bulb achieve free 360° luminescence.

Truefila is a perfect substitute for traditional incandescent, with both the energy-saving advantages of LED light sources and incandescent's vintage and elegant appearance. Its design won many international design awards.

TECHNICAL DATA

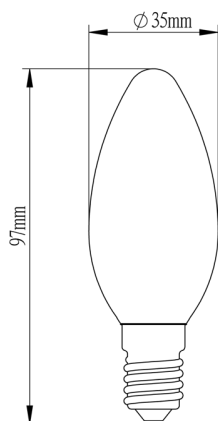

Bulb type	B35
Filament design	SS
Bulb Color	Amber
Cap fitting	E14
Colour rendering index (CRI)	80
Colour temperature	2200K
Energy rating	G
Equivalent wattage	25W
kWh per 1000hr life	3.4kWh
Light technology	LED filament
Function	Dim
Lumens	250lm
Power output	3.4W
Product diameter	35mm
Product length	97mm
Voltage	220-240V

Truefila

Truefila is an upgraded LED filament bulb. By using polyimide flexible material as a substrate, the flexible filament has higher flexibility and a larger luminous coverage area under 0.6mm substrate, making the bulb achieve free 360° luminescence.

Truefila is a perfect substitute for traditional incandescent, with both the energy-saving advantages of LED light sources and incandescent's vintage and elegant appearance. Its design won many international design awards.

TECHNICAL DATA

Bulb type	B35
Filament design	8
Bulb Color	Amber
Cap fitting	E14
Colour rendering index (CRI)	80
Colour temperature	1800K
Energy rating	ERP Exemption
Equivalent wattage	N/A
kWh per 1000hr life	3.0kWh
Light technology	LED filament
Function	No-dim
Lumens	180lm
Power output	3.0W
Product diameter	35mm
Product length	97mm
Voltage	220-240V

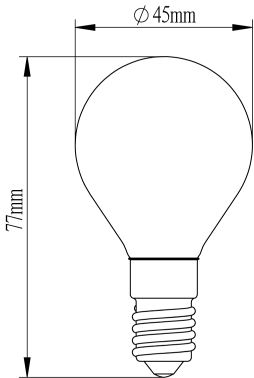

Truefila

Truefila is an upgraded LED filament bulb. By using polyimide flexible material as a substrate, the flexible filament has higher flexibility and a larger luminous coverage area under 0.6mm substrate, making the bulb achieve free 360° luminescence.

Truefila is a perfect substitute for traditional incandescent, with both the energy-saving advantages of LED light sources and incandescent's vintage and elegant appearance. Its design won many international design awards.

TECHNICAL DATA

Bulb type	G45
Filament design	SS
Bulb Color	Clear
Cap fitting	E14
Colour rendering index (CRI)	80
Colour temperature	2700K
Energy rating	F
Equivalent wattage	40W
kWh per 1000hr life	4.8kWh
Light technology	LED filament
Function	Dim
Lumens	470lm
Power output	4.8W
Product diameter	45mm
Product length	77mm
Voltage	220-240V

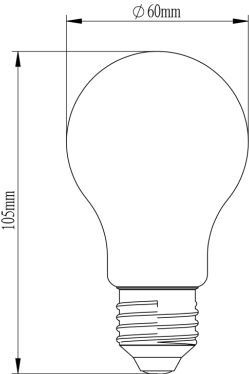

Truefila

Truefila is an upgraded LED filament bulb. By using polyimide flexible material as a substrate, the flexible filament has higher flexibility and a larger luminous coverage area under 0.6mm substrate, making the bulb achieve free 360° luminescence.

Truefila is a perfect substitute for traditional incandescent, with both the energy-saving advantages of LED light sources and incandescent's vintage and elegant appearance. Its design won many international design awards.

TECHNICAL DATA

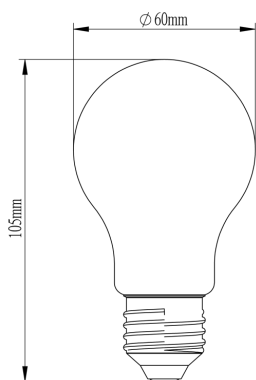

Bulb type	A60
Filament design	7
Bulb Color	Smoky
Cap fitting	E27
Colour rendering index (CRI)	80
Colour temperature	1800K
Energy rating	ERP Exemption
Equivalent wattage	N/A
kWh per 1000hr life	3.4kWh
Light technology	LED filament
Function	No-dim
Lumens	100lm
Power output	3.4W
Product diameter	60mm
Product length	105mm
Voltage	220-240V

Truefila

Truefila is an upgraded LED filament bulb. By using polyimide flexible material as a substrate, the flexible filament has higher flexibility and a larger luminous coverage area under 0.6mm substrate, making the bulb achieve free 360° luminescence.

Truefila is a perfect substitute for traditional incandescent, with both the energy-saving advantages of LED light sources and incandescent's vintage and elegant appearance. Its design won many international design awards.

TECHNICAL DATA

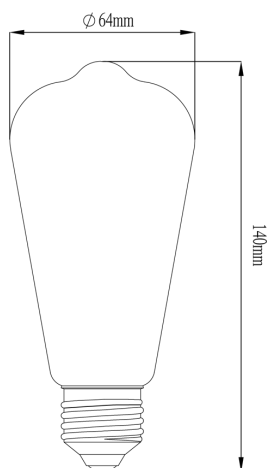

Bulb type	A60
Filament design	W
Bulb Color	Amber
Cap fitting	E27
Colour rendering index (CRI)	80
Colour temperature	2700K
Energy rating	F
Equivalent wattage	45W
kWh per 1000hr life	5.9kWh
Light technology	LED filament
Function	No-dim
Lumens	550lm
Power output	5.9W
Product diameter	60mm
Product length	105mm
Voltage	220-240V

Truefila

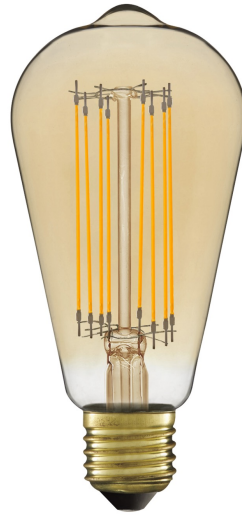

Truefila is an upgraded LED filament bulb. By using polyimide flexible material as a substrate, the flexible filament has higher flexibility and a larger luminous coverage area under 0.6mm substrate, making the bulb achieve free 360° luminescence.

Truefila is a perfect substitute for traditional incandescent, with both the energy-saving advantages of LED light sources and incandescent's vintage and elegant appearance. Its design won many international design awards.

TECHNICAL DATA
